When canvassed for insurance ask the agent the questions given below. If an *affirmative answer* cannot be given to *every question*, the policy he is selling is not as liberal as the policies which

THE MASSACHUSETTS

Mutual Life Insurance Co.

is now issuing, under which a policyholder enjoys the privileges enumerated below:—

1. Can the policy be surrendered for cash on any anniversary after the first?
2. Are the cash values for each year guaranteed and written in the policy?
3. Does the policy, in case of a failure to pay a premium, after two annual premiums have been paid, become binding upon the company as a paid-up policy, *without any action on the part of the insured?*
4. Are paid-up values for each year guaranteed and written in the policy?
5. Does the policy participate in annual dividends?
6. In case a policy lapses and becomes paid-up for $100 or more, does it participate in dividends?
7. Can dividends be used each year to reduce premium payments?
8. Or, if desired, to buy additions to the policy?
9. And if used to buy additions, can these additions be surrendered on any anniversary of the policy after the first?
10. Is it the custom of the company to loan on its policies when legally assignable?
11. If loans are made, are they for as much as 90 per cent. of the cash value?
12. Are all restrictions on travel and residence removed after two years?
13. If the installment feature in paying losses is offered, can installments be made in amounts to suit the applicant?
14. Can the insured, on proper application, secure an extension of thirty days' time in the payment of premiums?
15. Are losses paid as soon as proofs of death have been presented and approved?
16. Is the policy issued under the Massachusetts Non-Forfeiture Law?

If the above list of questions is preserved, it undoubtedly will prove an important factor in your decision as to which company you will apply to for insurance.

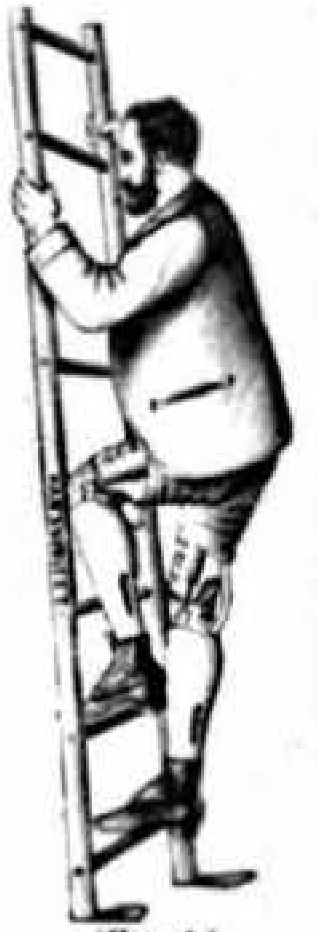
MARKS' Improved LEGS AND ARMS

With Rubber Feet and Hands.

PATENTS OF 1895.



[FIG. 1.]

Although a man may meet with the misfortune of having both his legs severed from his body, he is not necessarily helpless. By having artificial legs applied, with rubber feet attached, he can be restored to his usefulness.

Fig. 1 is from an instantaneous photograph of a man ascending a ladder; he has two artificial legs substituting his natural ones, which were crushed by a railroad accident and amputated. Fig. 2 exposes his stumps. With his rubber feet he can ascend or descend a ladder, balance himself on the rungs, and have his hands at liberty. He can walk and mingle with persons without betraying his loss; in fact, he is restored to his former self for all practical purposes.

With the old methods of complicated ankle-joints these results could not be so thoroughly attained.

Over seventeen thousand in practical use, scattered in all parts of the world. Many of these have been supplied without presenting themselves to us, simply by sending measurements on a copyright formula which anyone can easily fill out.

Awarded the highest prizes at every competitive exhibition.

Endorsed and purchased by the U. S. Government and many foreign Governments.

A treatise of 430 pages, with 300 illustrations and copyright formula, sent free.

THE BEST FOR EVERYBODY

BECAUSE

It is easy to find the word wanted.

Words are given their correct alphabetical places in the vocabulary, each one begining a paragraph so as to be readily caught by the eye.

It is easy to ascertain the pronunciation.

The pronunciation is indicated by the ordinary diacritically marked letters used in the schoolbooks, whose sounds are taught in the public schools.

It is easy to trace the growth of a word.

The etymologies are complete and scientific, and the different meanings a word has acquired are given in the order of their growth from the root idea.

It is easy to learn what a word means.

The definitions are clear, explicit, and full; terse, yet comprehensive. Each definition is contained in a separate paragraph.

Fisk Mfg. Co's Japanese Soap

is manufactured of the purest Oils and Tallow of our own refining. It is a **PURE SOAP,** free from the many poisonous adulterations that are put into soaps at the present day to give them weight, etc. Many persons are suffering to-day on account of using impure soaps. The Japanese is adapted to the Laundry, Toilet, and Bath. It has no equal. Patented October 11, 1875, and September 18, 1877.

THE JAPANESE

FISK MANUFACTURING CO.

SPRINGFIELD, MASS.

(Registered Oct. 11, 1875.)

Fisk Manufacturing Co.'s "**Extra Pale.**" Cut full weight. Two, three, and four pound bars. We maintain for it the justly merited reputation of being the "Best and Cleanest Bar Soap in America." Most bar soaps now in the market are composed almost entirely of rosin, poisonous and filthy grease, loaded with ground marble, silicon, pipe clay, lime, soda, caustics, etc., many being like the pressed cakes, wrapped, preventing them from drying and showing their true properties.

By using such soaps you destroy the clothes — a single garment, perhaps, costing more than a yearly supply of Fisk Mfg. Co.'s Pure Soaps, which do not yellow, rot, cut or grind the clothes.

Ask your grocer for them. Let them become hard and dry before using them. Look to their clothes-saving quality, which is true economy and cheapness.

SPRINGFIELD STREET DIRECTORY.

The Street Directory gives the location of each street, and shows what other streets, avenues or places run from or across it, with the number at which they intersect.

From this list the location of any number on a street can be easily ascertained. As, for instance, wishing to know at what part of Main street No. 310 comes, turn to Main street, and you find that Worthington street intersects at 298, right side, and Bridge street at No. 340, showing that No. 310 comes on the right side of Main street between Worthington and Bridge.

FIRE ALARM TELEGRAPH.

Instructions to Key Holders.—Key holders, upon positive information of a fire, will unlock the box, and, if the bell or the small bell in the box is not striking, pull the hook down to the end of the slide once and let go immediately. Do not strike an alarm when the bells or the small bell in the box is striking, for in that case the alarm is already striking, and to give a second one would confuse the firemen. After giving an alarm, remain, if possible, until the steamers arrive, to direct them to the fire. If you hear no clicking sound in the box after pulling the hook, go to the next box, and give the alarm from that.

Do not give an alarm for a fire at a distance, *nor for a burning chimney.* Do not strike the alarm more than once from the same box. Be sure the box is locked before you leave it.

POSTAL INFORMATION.

Important Extract from the Rules Governing the Post Office Department.

First-Class Matter—Matter which is in writing, or other matter containing a written inscription in the nature of personal correspondence, and matter which is sealed against inspection, are, by their nature, and the intent of the law, first-class matter, and subject to the postage rate of two cents for each ounce or fraction thereof. On local or drop letters, at all free delivery offices, two cents for each ounce or fraction thereof—other offices one cent.

Second-Class Matter—Mailable matter of the second-class embraces all newspapers and other periodicals, publications which are issued at stated intervals

and as frequently as four times a year, and are within certain conditions. (For these conditions apply at the office.)

When sent as transient matter, by other than the publishers, one cent for each four ounces or fraction thereof.

Third-Class Matter—Mail-matters of the third-class shall embrace books, circulars and other matters wholly in print; proof sheets, corrected proof sheets and manuscript copy accompanying the same, and postage shall be paid at the rate of one cent for each two ounces or fractional part thereof, and shall be fully prepaid by postage stamp affixed to said matter.

A circular is defined to be a printed letter which is being sent in identical terms to several persons. It does not lose its character as such by writing the name of the addressee or sender therein, nor by the correction of a mere typographical error in writing.

Permissible Additions to Third-Class Matter—Upon the matter of the third-class, or upon the wrapper or envelope inclosing the same, or the tag or label attached thereto, the sender may write his own name, occupation, and residence or business address preceded by the word "from," and may make marks other than by written or printed words to call attention to any word or passage in the text and may correct any typographical errors. There may be placed upon the blank leaves or cover of any book, or printed matter of the third-class, a simple manuscript dedication or inscription not of the nature of a personal correspondence. Upon the wrapper or envelope of third-class matter or the tag or label attached thereto may be printed any matter mailable as third-class, but there must be left on the address side a space sufficient for a legible address and necessary stamps.—(Act of January 20, 1888.)

Fourth-Class Matter—Includes merchandise and samples of merchandise, models, samples of ores, metals, minerals, etc., and any other matter not included in the first, second and third classes, and which is not in its form or nature liable to destroy, deface or otherwise damage the contents of the mail bag or harm the person. Postage rate thereon, one cent for each ounce or fractional part thereof.

Permissible Writing or Printing upon or with Fourth-Class Matter—With a package of fourth-class matter prepaid at the proper rate for that class, the sender may inclose any mailable third class matter, and may write upon the wrapper or cover thereof, or tag or label accompanying the same, his name, occupation, residence, or business address, preceded by the word "from," and any marks, numbers, names or letters for purpose of description, or may print thereon the same, and any printed matter not in the nature of a personal correspondence, but there must be left on the address side or face of the package a space sufficient for a legible address and necessary stamps.—(Act of January 20, 1888.)

The tag or label, with the printing or writing authorized thereon, may be attached to the whole package, or separate tags or labels, bearing the same, may be attached to each of one or more articles contained in the package.

The postage to Canada is the same as domestic postage.

The fee on any registered matter, domestic or foreign, is fixed at eight cents on each letter or parcel, to be affixed in stamps in addition to the postage. Two or more letters or parcels addressed to or intended for the same person cannot be tied or otherwise fastened together and registered as one.

Special Delivery—A special ten cent stamp affixed to any article of mailiable matter in addition to the ordinary postage insures its delivery by special carrier, immediately upon its arrival at the office of destination, between the hours of 7 a m and 11 p m at free delivery offices and 7 a m to 7 p m at other offices. But this delivery will only be made within the carrier limit at letter-carrier offices and within one mile of post offices at all other places.

Highest Tribute Ever Paid to a Bicycle!

New York, March 25th, 1896.

Mr. W. C. Pawley,
Sec. Jersey City Y.M.C.A.

The National Board of Trade of Cycle Manufacturers hereby sanctions a public exhibition of cycles, accessories, and sundries, at the Y.M.C.A., March 27th and 28th. This sanction is granted on the express understanding that no exhibition of VICTOR BICYCLES will be permitted. Yours truly,

R. L. COLEMAN, President.

WHY are the members of the National Bicycle Board of Trade **AFRAID** to exhibit their wheels with

VICTORS?

BECAUSE VICTORS

Cost more to build,
Are made of better material,
Show better workmanship,
Run easier and wear longer,
Are worth more than other bicycles.

WHY NOT RIDE THE BEST?

THE IMPROVED

Chadwick Copying Book

TRADE-MARK.

PATENTED OCTOBER 16, 1888

These Books are made waterproof at binding and corners, and are provided with moistening pad and oil sheets, by the use of which a number of pages can be kept moist and ready for immediate use, DISPENSING ENTIRELY WITH WATER POT, BRUSH AND WET BLOTTERS. The pad is first wet with water, then placed in book, back of twenty or more sheets, and put in press until required for copying, when sheets will be found uniformly and thoroughly moist, and VERY SUSCEPTIBLE TO ANY COPYING INK.

The back of the book being waterproof prevents the moisture from working into the binding or into leaves already copied on, and by similar treatment of corners leaves do not stick together and prevent rapid handling. The paper in these books is of extra strength, so they can be readily handled without tearing.

WE MAKE ANYTHING WANTED IN THE LINE OF LETTER OR INVOICE COPYING BOOKS.

Office, 590 Main Street.

We have every facility for distributing Circulars, Sample copies, Samples, Catalogues or any Advertising matter at as low a rate per thousand as is possible for thorough and efficient work. In this line we cover Springfield, West Springfield, Westfield, Chicopee, Holyoke and Thompsonville.

Have you heard of our 30 day plan? If not, read what they say about it. By this system we cover all territory in a radius of 20 miles of Springfield and outside of all large towns and cities. To be brief, we will take 1500 circulars, samples or ANY advertising matter and put them IN 1500 country homes for $6.00 per month.

We have a large envelope in which all advertising matter is put and as we take only ONE of each kind of business, our work is very effective. We go to the door of EVERY house and hand the envelope to whoever answers our knock; we devote our whole time to this business as we have NOTHING TO SELL.

If this interests you drop us a postal for full particulars, and don't forget that when you want work done promptly and thoroughly that we do it that way.

Webster's International Dictionary

The One Great Standard Authority,
So writes Hon. D. J. Brewer, Justice U. S. Supreme Court.

A THOROUGH REVISION OF THE UNABRIDGED,

The purpose of which has been not display nor the provision of material for boastful and showy advertisement, but the due, judicious, scholarly, thorough perfecting of a work which in all the stages of its growth has obtained in an equal degree the favor and confidence of scholars and of the general public.

It is the **Standard** of the U. S. Supreme Court, all the State Supreme Courts, the U. S. Government Printing Office, and of nearly all the Schoolbooks. Warmly commended by State Superintendents of Schools, and other Educators almost without number.

The **International** is **invaluable** in the household, in the schoolroom, and to the teacher, scholar, professional man, and self-educator.

IT IS THE BEST FOR PRACTICAL PURPOSES, BECAUSE

Words are easily found * * * Pronunciation is easily ascertained, Meanings are easily learned * * * The growth of words easily traced, and because excellence of quality rather than superfluity of quantity characterizes its every department. * * * * * * * GET THE BEST.

Fisk Mfg. Co's Japanese Soap

Is manufactured of the purest Oils and Tallow of our own refining. It is a **PURE SOAP,** free from the many poisonous adulterations that are put into soaps at the present day to give them weight, etc. Many persons are suffering to-day on account of using impure soaps. The Japanese is adapted to the Laundry, Toilet, and Bath. It has no equal. Patented October 11, 1875, and September 18, 1877.

THE JAPANESE

FISK MANUFACTURING CO.

SPRINGFIELD, MASS.

(Registered Oct. 11, 1875.)

Fisk Manufacturing Co.'s "**Extra Pale.**" Cut full weight. Two, three, and four pound bars. We maintain for it the justly merited reputation of being the "Best and Cleanest Bar Soap in America." Most bar soaps now in the market are composed almost entirely of rosin, poisonous and filthy grease, loaded with ground marble, silicon, pipe clay, lime, soda, caustics, etc., many being like the pressed cakes, wrapped, preventing them from drying and showing their true properties.

By using such soaps you destroy the clothes—a single garment, perhaps, costing more than a yearly supply of Fisk Mfg. Co.'s Pure Soaps, which do not yellow, rot, cut or grind the clothes.

Ask your grocer for them. Let them become hard and dry before using them. Look to their clothes-saving quality, which is true economy and cheapness.
